Body Curled Around Stump. The boy, search for whom was in stituted two hours prior to finding the body, bled to death from a gunshot wound in the right groin, in the opin-

ton of physicians.

The body, curled around a tree stump, was discovered by James Thorn, 16, of Canton street, member of a searching party which started to comb the woods after the boy's allnight absence.

Young Elkins, who lived with his grandparents, Mr. and Mrs. George Reed. Woodbine street, is believed to have accidentally shot himself late yesterday afternoon, when his doublebarreled shotgun was discharged as he stumbled while on his way home. The shotgun, both barrels empty, was found near the body.

TUESDAY, NOVEMBER 29, 1927.

Welcome, Billy Sunday

Marking his first visit here since 1912, when he conducted a six-week campaign, Rev. William Ashley Sunday, the famous evangelist, now 65 years old, returned to East Liverpool today for two addresses at the centennial of Methodism.

Apparently as vigorous and lacking none of the enthusiasm which he radiated 15 years ago, the former athlete, who quit the baseball field for the ministry, arrived here from West Frankfort, Ill., where on Sunday he closed a series of revival meetings. he closed a series of revival meetings.

The large auditorium of the First Methodist Episcopal church was too small to accommodate the crowd which sought admittance at his noon meeting, indicating that the athletic pulpit speaker is one of the most popular men who ever preached the word of God. And it is a foregone conclusion that equally as many people will attend his second meeting tonight.

Billy Sunday, who played professional baseball in 1883-90, as a member of the Chicago, Pittsburgh and Philadelphia teams of the National league, later served four years as assistant secretary of a Y. Smith Leads Among the Democrats. The Republican straw-voters w judgment was the predominant presi dential sentiment among the Demi crates of their respective commun ies and if they are any good at feeling the Democratic pulse, Governor Al Smith, of New York, is so far in the lead in the race for his party nomination that it looks more like one-man parade than a race.

In fact, Col. Lockwood says one of the conclusions to be drawn from this poll is that Governor Smith "comes as near being the unanimous choice his party as any candidate for such a nomination has ever been so far ahead of a convention. It seems that Smith and Reed, of Missouri, are the only contenders for the Democratic nomination now having strength of consequence and that Smith is so far ahead that his defeat is highly im probable.

The Republican editors in undertak ing to express the presidential preference of their Democratic neighbors gave Smith 737 votes, Reed 163, Mc-Adoo 102, and Meredith 110. Of the Republican committeemen, 224 placed Smith first, 110 picked Reed, 34 Mc-Adoo, and 33 Meredith. Smith is thus rated the leader by an aggregate of 1.071 votes to 273 for Reed, a ratio of about four to one. Some Democrats may object to hav-

# The Woolwortl Building Hasn't Been Sold Lately---

Gold bricks are going begging these days. No one has bought the Chester Bridge for several vears now.

Very significant, this inability to swindle people these days. That is on some things. Other things? Oh, well for instance there are a few people yet around East Liverpool who don't know their onions

Take for example, gasoline and oil. Most folks are gasoline conscious, by that we mean that they know something about it. They appreciate the vast differences in both gasoline and oil.

Other people, blissfully unaware of the situation, go on day after day using some unknown nameless variety of gasoline or oil. They are the folks who say, "Give me 10 gallon of gas, or a quart of oil."

They don't seem to realize what a grand reaming they're getting every time they buy.

If you are in this class we ask for the opportunity of showing you how to get your money's worth.

We are in business to stay. We have been successful because we have always striven to give our customers the utmost value in gasoline and oil.

For that reason we are selling Blue Sunoco Gasoline and Oil. We know for an absolute fact that they are the best sold here in East Liverpool. If they weren't you can bet that we would have changed brands long ago.

You wouldn't buy the Woolworth Building or the Chester Bridge. You're too smart—but if you want to keep your batting average up in the "Smart league" start investigating gasolines and oil now.

We promise you that Blue Sunoco will stand any test you give it and come out ace high. It costs no more than ordinary gasoline.

#### THREE NEGROES FORMER PASTORS ARE AMONG 300 GUESTS AT BANQUET IN CHURCH

Time in its flight turned backward one hundred years as more than 300 men and women of the First Methodist church, in centennial anniversary assembled, caught again the spirit of the past and developed new inspiration for the future at an outstanding banquet in its social auditorium last

The affair, given under the auspices of the official board, was under the direct supervision of the Women's Service league. W. T. McNutt, chairman of the of

ficial board, was toast master. In the background as general superintendent was Dr. Warren O. Hawkins, the recently appointed pastor. He made the final ministerial address. Representing the district and the conference of the denomination was Dr. H. S. Powell, of Steubenville.

Minus only the presence of Dr. Isaac Wood, of Barnesville, who failed to arrive for the event, and the inability of Drs. T. W. Lane, of the Pacific Coast and A. D. Mink, of Orrville, to be present, all surviving pastors during the final quarter of the church's

centenary of life were in attendance. Reminiscence, song, story, experi-ence and comment that rose to the status of preachment commingled in the former pastoral and early members' responses.

The whole was perhaps epitomized by Mrs. Nellie Williams Hendershott, the daughter of the late Rev. John Williams, twice the pastor of the church in the eighties who on both occasions brought the congregation to a high point of religious tone and usefulness. She realistically told the details of how her parents raised the seemingly impossible debt of \$7,000 one one occasion. She even confided how Dr. Williams gave every cent he

possessed for the purpose.

How when chided a bit by his good wife when the task was accomplished the pastor replied "He never failed me yet!" And the next day, she related, "Charles Surles came to our door with an envelope which my faopening disgorged numerous 'He never failed me yet!' he shouted to my mother."

And so, with tears welling in many eyes during her graphic recital of the ncident "He Never Failed Me Yet!" became the slogan of the banqueters. They face the second century of the church's history with renewed

Mrs. Hendershot envisioned the old church auditorium, recalling the seats n which many long gone on had sat. "Mr. W. L. Thompson, always in a hurry used to arrive late to play the or-gan," she said. "And Elizabeth Cartwright, ever wearing a bouquet of rected by Prof. Hugh F. Laughlin, with flowers, would burst into the choir just in time to sing her solo." How the church was decorated with bird

cages. The Sunday the \$1,000 was raised was noted by her. She deprecated the passing of many she former ly knew so well, mentioning Ambrose Cartwright, J. W. "Zach" Irwin, David Boyce, Mrs. William Cartwright, Henry and Samuel Ashbaugh and others of her day. "I am sure," she concluded, "that in the Apostolic succession so frequently mentioned to night you also duplicate my father's record by paying your present indebt-

Plain or Chocolate

A Tested Recipe

2 cups pastry flour
3 teaspoons baking powder
1½ cups milk
1 tablespoon sugar
2 eggs
1½ cups milk
2 tablespoons Crisco

1/2 teaspoon salt Sift flour, baking powder, salt and sugar together. Separate eggs and add milk to beaten egg yolks and stir into dry ingredients. Add milk and Crisco and fold in stiffly beaten egg whites. Pour by spoonfuls on very hot Criscoed waffle iron. Serve hot with honey or maple syrup.

FOR CHOCOLATE WAFFLES, add two tablespoons melted chocolate with the melted Crisco and follow recipe

I use Crisco, not only for my waffles, griddle cakes and hot breads, but for every shorten-ing and frying use. Crisco gives me light tender cakes that you cannot tell from those made with expensive butter; flakier pie crusts; fluffy golden biscuits and all kinds of fried foods without smoke, unpleasant odos

May be relieved by rational treatmentit can not be rubbed away.

Are you one of those unfortunates who suffer with pains in your muscles and joints, commonly called rheumatism, making you miserable, less efficient, interfering with your working hours, ruining your sleep?

You may have tried many things without relief. Why not try S.S.S.? For more than 100 years it has been giving relief in thousands of cases, as testified to in unsolicited letters of gratitude.

"I suffered from rheumatism for a good many years. At times my joints would swell so, I couldn't walk. I tried almost everything. Went to Hot Springs 12 to then short time the rheumatic matic pains entirely left me. I am now in perfect health, and want to add that I have tried all kinds of medicines but I think S.S.S. is the best." Earl C. Campbell, 115 West Main Street, Johnson City, Tenn.

S.S.S. is purely vegetable. It is extracted from the fresh roots of medicinal plants and herbs and gives to Nature what she needs in building you up so that your system throws off the cause.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

Instruction, Expected.

As a result of a reduction of 1.8 mills in taxes, Wellsville schools today are in better financial condition than for a long period of years.
With the further expected reduction

of bonded indebtedness, the board of education will be in a position, it is said, to apply a greater portion of school revenues to the maintenance of its plants and to the supplying of material necessary for instruction and efficient school work.

County auditor's report shows that the tax rate for school purposes has been reduced from 14.3 mills to 12.5 mills, the reduction being made possible by the retirement of bonds and interest during the past year. During that period the bonded indebtedness of the city school district was reduced approximately \$75,000. On Novem ber 1, the clerk retired \$41,000 in bonds issued in 1919. No bonds were issued by the city school district during the year just passed, the school levy approved by electors a year ago enabling the board to meet obliga-tions without issuance of bonds for perating.

# IMPORTANT FACTS ABOUT THE NEW FORD CAR

Complete details of the new model will be available this FRIDAY

in this city

FRIDAY of this week will unquestionably be one of the most important days in the entire life of the automobile industry. On that day, complete details of the new Ford will be available in this city.

You will be surprised when you get the facts about the new Ford car, for you never have dreamed that such a really fine car could be produced at a low price. As Henry Ford himself says—

"The new Ford car embodies the best results of our experience in making 15,000,000 automobiles. We consider it our most important contribution thus far to the progress of the motor industry, to the prosperity of the country, and to the daily welfare of millions of people."

The new Ford car is distinctly a new and modern car, designed to meet new and modern conditions. It is more than a new automobile. It is the advanced expression of a wholly new idea in modern, economical transportation.

# An entirely new car in every respect

The minute you see it—ride in it—you will realize that it is not a mere refinement of the former model T Ford, but a new car from radiator cap to rear axle! Many, features of it are exclusive Ford developments. Some are wholly new in

The new Ford car has exceptional beauty of line and color. It is, in every respect, a new and modern car, designed and created to meet modern conditions.

automobile practice. There is nothing quite like it in quality and price.

The new Ford car has unusual beauty of line and color. . . . It has a 40-horsepower engine. . . . It will do 55 and 60 miles an hour with ease and has actually run 65 miles an hour on road tests. . . . It is quiet and smooth-running at all speeds. . . . It is remarkably quick on the get-away. . . . It has specially designed mechanical four-wheel brakes. . . . It has hydraulic shock absorbers. . . . It has a standard, selective gear shift. . . . It is quick and easy to handle in traffic and steady and sure on the open road. . . . It runs 20 to 30 miles on a gallon of gasoline, depending on your speed. . . . And it has the stamina and reliability that you need for mile-after-mile and ye after-year service.

# The new Ford car will sell at a surprisingly low price

When you think of such features as these, you think instinctively of a car costing much more than the new Ford. The low price is as unusual as the appearance and performance of the car itself.

The low prices of the six body types are undoubtedly lower than you thought they would be when you first heard that Ford was making a new car. They are, in fact, lower than we thought they could possibly be when we started to make this car.

We determined to bring new comfort, beauty, speed, safety, economy and reliability within reach of everybody who drives a car, and then forced ourselves to find ways to make the low prices possible.

The new Ford car is the result of years of careful planning. Every part of it has been tested and retested in actual practice. There is no guessing as to whether it will be a successful model. It has to be. There

The new Ford has unusual speed and power. It will do 55 and 60 miles an hour with ease and has run 65 miles an hour on road tests.

is no way it can escape being so, for it is the sum total of all we have learned about motor car building in the lifetime of the Ford business.

# Some of the features of the new Ford car

In this connection we call your particular attention to the new engine; the new pump, splash and gravity oil system; the multiple dry-disc clutch; the new pump and thermo-syphon cooling system; the new battery, coil and distributor ignition; the low center of gravity and minimum unsprung weight which combine with the hydraulic shock absorbers to make the new Ford such an easy-riding car; the irreversible steering gear, with the column and the housing of the steering gear mechanism welded into a single all-steel unit; the seamless, all-steel torque tube; the new one-piece, welded, steel-spoke wheels; the three-quarters-floating rear axle in a forged-steel housing of exceptional strength; the theft-proof coincidental lock; and the aluminum pistons which were selected after many tests because of their light weight and heatconducting qualities.

"The new Ford car embodies the best results of our experience in making 15,000,000 automobiles. We consider it our most important contribution thus far to the progress of the motor industry, to the prosperity of the country, and to the daily welfare of millions of people."

Henry Ford

Steel forgings are used throughout except, of course, for the engine castings. More steel forgings, in fact, are used in the new Ford than in almost any other car, regardless of price.

WE ARE able to sell this new Ford car at a low price because we have found new ways to give you greater value without a great increase in our own costs. Because we own our own ore mines, coal mines and timber lands and the source of most of our raw materials. Because we make virtually every part used in the new Ford car. Because it is the Ford policy to make a small profit on a large number of cars, rather than a large profit on a small number of cars.

# There is nothing like it in quality and price

No other manufacturer can possibly duplicate the new Ford car at the Ford price because no other manufacturer does business the way we do. The public made this business possible. We believe we should share our profits with the public by continually giving greater and greater value for the money.

There are good and substantial reasons, therefore, why the new Ford car is the most unusual value ever offered in a low-price car.

By all means, learn about the new Ford on Friday when it is officially announced in this city. You will know then that there is nothing quite like it anywhere in quality and price.

## ROUGH SKIN IS NOW VELVETY AND SMOOTH, SHE SAYS

Redwood's Tepee Herb Tonic Purified Woman's Blood.

Sometimes a rough skin comes from external causes such as exposure to wind, water, heat and cold. For these a remedy is easily found, but when the skin is rough from internal troubles the condition can only be relieved by thoroughly purifying the blood.

Redwood.

For this purpose there is nothing better than Redwood's Tepee Herb Tonic says Agnes McDonel, 540 S. Oakley St., Cleveland. In regard to her personal experience she makes the following statement:

Gibby Welch, Panthers' Brilliant Half, Picked on Walsh's First Team; All Sections of Country Represented.

New York, Nov. 29.—A few years back a vaudeville pair used to get a laugh by announcing: "We will now do a trick that is absolutely impossible." Today the writer will do that trick, too. He will name 11 men on his All-American footbeall team for 1927, just as though he didn't know that there are a thousand good ones out through the country and the 11 best probably could not be infallibly and definitely declared this side of the hereafter.

The writer, therefore, considers himself merely a clearing house for

games he personally witnessed served more to eliminate than to install pos sible candidates. He saw Sprague, of the Army, play two fine games at tackle against Notre Dame and the Navy and is thoroughly satisfied with the selection. Smith, of Notre Dame looked the part of a good steady guard, much along the lines of Web-ster, of Yale, the inspiring leader of a very strong offensive line. So, outstanding guards being few this year, this pair gets the call.

As for Oosterbaan at end, Spears at quarterback and Drury at halfback, they simply cannot miss. Oosterbaan's passing and receiving, in addition to his defensive end play, puts him in automatically; Spears is the greatest back the south has seen in years and Drury's running against Stanford and California, irrespective of his work in the Notre Dame game, leaves one no alternative but to name him with all seemly haste. Hibbs, like Sprague, is big, strong, fast and aggressive and altogether seems to be about as good as they come.

# getting mine with a pipe

HAVE you never bent over a tidy red tin and caught that marvelous P. A. fragrance? Only a great tobacco could smell as good as that. You prove how good it is on the very first fire-up. What a taste, Men!

Cool as an immigration-officer. Sweet as getting in. Mild and mellow as you expect a smoke to be, yet with that full-bodied flavor that makes every puff a pleasant experience. I wish I could put the taste right on your tongue, but you'll have to do that.

P.A. in a pipe is cool and long-burning, right to the bottom of the bowl. This one brand is bought by more men than any other tobacco in the world. There's only one way to account for that-P. A.'s quality!

The sooner you get started, the better. A load of P.A. in the bowl of your pipe will be a load off your mind. And I don't mean that for any wise-crack. No matter what your present program is, try Prince Albert on the word of a friend. I'm telling you straight, you'll make no mistake.

More for your money in every way-TWO full ounces in every tin.

CALL ALIENIST

Plan to Apply Leopold-Loeb Defense.

CHICAGO, Nov. 29 .- An attempt to save Ruth Snyder from the electric chair by the application of psychiatry such as featured the defense in the famous Leopold-Loeb case, was said to be the aim of Dr. Clarence A. Neymann, noted Chicago alienist, who to

day had arrived in New York. Dr. Neymann conducted elaborate tests on the two slayers of Bobby Franks and it is believed his testimony had no small part in saving the ouths from the gallows.

The Snyder defense, it was reported here, will attempt to establish through Dr. Neymann that Mrs. Snyder and Judd Gray comprise a su preme case of 'folie a deux,'-insanity of two. It is said to be the rarest combination known to psychiatric

This defense was used for the first time in American criminal jurisprudence when that mystery pair of college boy thrill slayers—Nathan eopold and Richard Loeb-faced the gallows. It implies complementary insanity, meaning that one would have led a normal, sane life if he had not met the other.

Former Judge Edgar F. Hazelton, Mrs. Snyder's counsel, is understood to have retained the famous Chicago alienist. With ordinary legal avenues closed against his client, Hazleton hopes that Dr. Neymann can prove the case of "folie a'deux,' 'after which the attorney will appeal directly to Governor Al Smith.

Hughes 229, Dawes 310. The aggregate first and second choices of the two leaders were Hoover 1,004 and Lowden 789.

The editorial preferences place Hoover in the lead in California, Colorado, Kentucky, Louisiana, Maine, Massachusetts, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, Oregon, Pennsylvania, Rhode Island, Tennessee, Utah, Vermont, Virginia, Washington, West Virginia, and Alaska, while they rank Lowden first in Minnesota, Missouri, Montana, North and South Dakota, Oklahoma, Wyoming, Illinois, Iowa, Texas and

shown to be far more nation-wide than is that for the Illinois candidate. Hughes is the first choice of the editors in New York, Connecticut, Alabama and Georgia, while Dawes leads in Indiana and is second or tied in number of first choice votes in Illnois, New Mexico, Ohio, and Wash-

The votes of the Republican state committeemen place Hoover first in California, Colorado. Connecticut, Delaware, Florida, Illinois, Kansas, Maine, Massachusetts, Kentucky. Michigan, Nevada, New Hampshire, New Jersey, New Mexico, Oregon, Pennsylvania, Washington, Wisconsin, and West Virginia, while they give Lowden the lead in Arizona, Alabama, Georgia, Indiana, Iowa, Minne-sota, Missouri, Montana and North

and South Dakota. The significant feature in this, ac cording to the commentators, is that the practical party workers give first place to Hoover in Illinois, which has two presidential candidates in the persons of Lowden and Dawes, and in Kansas, which also has a favorite son in Senator Charles Curtis, the only openly avowed aspirant for the nomination, while Lowden leads in Indiana where Senator James E. Wat-

son is a prospective favorite son. It may also be regarded as significant that Hoover is the first choice of both the editors and the commit eemen in Vermont, President Coolidge's native state, and in Massachusetts, the president's home state.

Supporters of candidates not made conspicuous by this straw vote take other ingredients of proven medicinal some little satisfaction in calling at values, there results a peculiar qualtention to the fact that Leonard ity for healing, characteristic of this Wood and Governor Lowden led all the straw votes prior to the 1920 convention, but that Warren Harding proved to be the nominee.
